THE UNIVERSITY of EDINBURGH
School of Economics

Venue

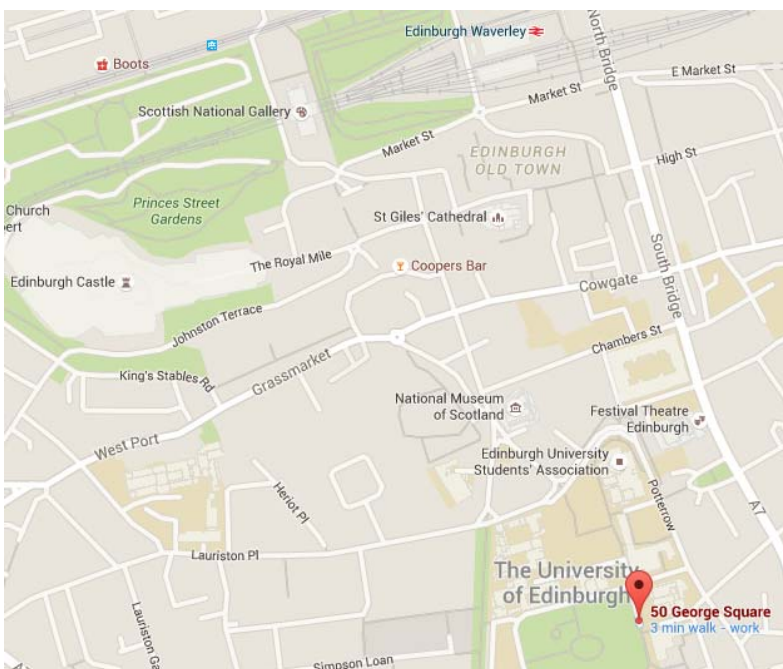

50 George Square

The Screening Room at 50 George Square is situated on the West side of George Square, in the Central Area of The University of Edinburgh. George Square was originally built in 1766, outside the then overcrowded old town, as a residential area, which enclosed a garden square. The building is within a mile of the city centre.

The main pedestrian access to George Square, which lies between Chapel Street and the Meadows, is from Middle Meadow Walk and George Square Lane from the West, or along Crichton Street from the East.

George Square Gardens

The nearest railway line is at Waverley Station in the city centre, which is 0.8 miles from the venue. From the station you can either take a taxi from Market Street exit or take a walk up and through the old town.

From the airport we would recommend taking the tram to Princes Street and then walk or taxi, or take a taxi direct to accommodation or venue. Please note that the Royal Highland Show will take place 23-26 June 2016 and may affect travel between City Centre and Airport.
